 - *Packaging, Export Paperwork, Customs & Freight*

WHAT MAKES US DIFFERENT

- You are working directly with a US established company
 - Have you had in the past any bad experiences working directly with non-US established suppliers? (I received what I didn't order, I received too many damaged pieces, I received colors I didn't ask for, my order was never fulfilled and I lost my investment)
 - After 2 shipments, credit schemes for US customers are available for our clients
 - Possibility to pay with credit card for US and Canada customers (3% royalty fee surcharge of the total payment made with the credit card). We accept VISA, AMEX and MASTERCARD).
- Quality and breakage guarantees
 - 3% of product value direct coverage (S&H not included) for any breakage occurring during shipping or pieces that are under quality standards
- Compromised lead times and guarantees
 - 0.5% discount of product value per late day based on date we compromise to be at US border (*lead time guarantee not available for Value Pack Orders*)
- Long-Term Vision
 - Distributorship area exclusivities - 200 mile radius exclusivities for full container load clients ordering at least 4 trucks a year
 - Open to partnerships with distributors to grow
- Price Match
 - If our price on a specific piece is higher than with any other supplier let us know the price and under the same sale conditions given from that supplier we'll try and give you at least the same price

A COLORFUL EXPERIENCE

- Select specific colors for each ordered item
- Large array of colors and finishes that comply to different types of markets, both outdoors and indoors
- Over 80 different colors and hundredths of possible combinations – if your color is not in our catalog give us a photo and we'll match your color
- Available techniques: Aged Gold, Natural "Oxido", Yellowish "Oxido", Transparencies, Natural Transparencies, Yellowish Transparencies, Terra Cotta, Contemporary, Contemporary Patterns, Tanned, "Moho", "Cantera", Detailed and "Encerado" (Detailed and Encerado finishes might be applicable to an additional surcharge from our list prices)
- Superb coating finishes versus our competition. We use special lacquers, sealers and thinner for clay products from a multinational brand. (CAREFUL: Many suppliers use mom and pops small shop lacquer and dilute it with gasoline. The result is that your piece will loose shininess and

protection in a very short period of time). With our finish we can assure the pieces will last and shine indoors or outdoors (under the harshest weather conditions) for a very long time.

- Code powdered iron accessories - no more rust, painting falling apart, scratches or uneven painting finish
- Our iron accessories are made with sturdy material not the thin material used by other suppliers. For example, 15", 17" and 19" diameter iron stands for chimneys are made with 3/8" round iron. We can make iron accessories based on your specifications.

VALUE PACK ORDERS

If your Company's emphasis is volume and price you might want to read ahead. If you need us to ship an order faster and are flexible to fill up your truck with varied available merchandise, you might be interested in our Value Pack orders. Value Pack order work under the value of the whole shipment and not the individual price per piece.

- Save up to 25% versus catalog orders
- Color selection limited to 3 – 4 colors
- We ship in 10 days maximum a full 53 Ft. container load
- You can let us know the items you want and we'll make our best to include as much as possible on your Value Pack order
- Full truckloads with vases, garden pots or chimneys. Other product lines of our catalog are charged separately.
- Load at \$8,450 USD including packaging. With 100% upfront payment, get it for \$7850 USD including packaging. No stands included in this example, if added they will be charged separately. Customs & Freight not included.

Special Projects & Project Development

If you need us to work in the development of pieces made under your request let us know. We have the ability to develop products or fulfill specific needs for construction or design projects.

Frequent Asked Questions

How long till I receive my order?

If it is your first order, catalog orders take an average of 5 weeks to arrive to your door (4 to 6 weeks). After the first order and if you are a recurrent client, catalog orders can lower to 3-4 week delivery periods. Value Pack orders that from 10 days to 2 ½ weeks to arrive. Please note that delivery periods are averages as they vary depending on the needs of each order, the workload we encounter when placing your order and weather conditions.

What are your methods of payment?

We charge 50% down payment and 50% when arriving for your first 2 orders. After the 2nd order we're open to make credit schemes. Payments with credit cards need to be 100% paid after shipping from US border.

What is the merchandise value for a full 53 Ft. truckload?

A 53 Ft. truckload catalog order has an average value of \$10,000. If many small décor items are added to the top layers of the truck the average value is around \$12,000. For Value Pack orders the average is \$8,555 including packaging.

How do you pack and how much do you charge for packaging?

For a full 53 Ft. container load we charge \$650 USD. This includes uploading, over 1000 lbs of carton, around 36 4-layer cardboard flooring, tags with item number in each piece and plastic wrapping for every piece. If you need us to tag your code numbers or trademark please feel free to ask us for a quote. We also can box or palletize orders. If you are interested please ask for a quote.

Is there a minimum order?

We do not have minimum orders. Then again due to the fact that our pieces are usually heavy and take a lot of volume when shipping, most of our clients order full 53 Ft. Container loads. If you are interested in 53 Ft. container loads but want to add other merchandise besides our Nanus products you can use our GoBamba Trader services (purchase, consolidation & shipping services) or else let us know with which company you want to consolidate and ship.
